

Pike Has No Mercy.
Pike and his "gangs" "sweep" the New England States, all the while, where the water is quiet and make their place in patches of swamps or in a stream, says the American Farmer Magazine. Finding them out and strike with the in ambush a few minutes before the sunrise, waiting the moment of darkness or "darkness," upon them he has no mercy, striking them in his powerful jaws and breaking their bodies several times in the course of the season.

PEPPERMINT OIL SAVES FARMER

Angry Bull Couldn't Stand Sting of Toothache Remedy Dropped in Eyes.

Plattsburg, N. Y.—Edward Chabbot, a farmer near the town of Jay, hereafter won't be chasing up lost cattle unless he carries a bottle of oil of peppermint in his pocket. At least, so says Mr. Chabbot today.

Here's why: Chabbot, with his hired man, Walter Smith, started out to round up some scattered cattle. The two men became separated, and Chabbot wandered into Thomas Gorman's pasture. Within was a temperamental bull that took offense at the red in Chabbot's cap.

The bull galloped for Chabbot. Chabbot galloped for the only tree in the pasture, which wasn't much more

Poured the Oil into the Bull's Eyes.

than a sapling. But Chabbot shinned up it, and got just above the bull's head. The bull had a single-track mind. For two hours, he butted the tree.

Just as Chabbot was ready to drop from exhaustion, he thought of a bottle of peppermint oil in his pocket, given him by a dentist to ease aching teeth. When the bull put his head to the tree-shaking task again, Chabbot pulled out that bottle, uncorked it, and poured the stinging compound into the bull's eyes.

The bull went away and laid down to think it over, blinking reproachfully the while at Chabbot. Then along came Smith, the hired man, who completed the rescue with a fence rail.

Drunkness Leads to Cause for Trial of Men Despite Prohibition, Says Official.

Washington.—Drunkness continued to be the principal cause for trial of enlisted men of the navy for desertion or overstaying leave during the last fiscal year, according to the annual report of Rear Admiral George B. Clark, judge advocate general, to Secretary Daniels.

Of 1,225 such cases during the year period of drunkenness were entered in 364 cases.

The excuse, "having a good time," was given in 362 cases. Homelessness caused 30 sailors to take "French" leave, and in eight cases the plea was entered that the work on board ship was too hard.

More than 41,000 cases were tried by court-martial during the year.

Living With Death In Heart.

London, Jan.—James Freeman of this city has a bullet in his heart and is still alive. He told the police he was shot by his wife, from whom he had been separated, when he returned home after he was told to leave threatened her. She shot him at the door and fired pointblank. He walked to the police station, nearly three miles away, where medical attention was given him. He was removed to a hospital and an X-ray taken which showed the bullet resting in the heart.

Another Case of Hysteria.

All three men's names must give prize of place on records belonging to them played by children. They were, for instance, at least 15 years old. Some of the singing songs were of British origin, while others were of American origin.

FIND LIKENESS OF AUGUSTUS

Archaeologist Discovers Splendid Statue of Roman Emperor at Tivoli.

LIFELIKE STUDY BY ARTIST

Valuable Addition to Portraits of Roman Emperors and is Only One Extant Done During Emperor's Life.

Rome.—Tivoli, that lovely little city perched above Rome, called Tibur by the ancient Romans, has just given to the archaeological world two new art treasures—an augustus, or hall, and a splendid head of Emperor Augustus.

Prof. Alessio Valle, one of the archaeologists who have made Tivoli a special study, long believed that Tivoli should reveal an ancient hall of importance, considering the flourishing state of the city in Roman days. He began to dig near a newly discovered weights and measures of the, also dating from the Roman empire, thinking that the public weights and measures must surely be near some important hall.

He was not mistaken. He has opened up a hall with a Roman pavement of white and green marble which looks as if it were put down this morning, so fresh is it, and the statue of Augustus, broken but with the head intact, as the picture shows, with the lifelike lines cut out of the marble by some unknown sculptor of evident genius.

Likeness of Augustus.

The statue is a likeness of Augustus when he had grown old. An inscription underneath it, which dedicates the statue to the gods, "for the happy return in good health of our Augustus Caesar," proved it was done during the famous emperor's lifetime, a votive offering to the gods by a loyal Tivoli citizen who signs himself M. Varnus Dillius. The same man gave the public weights and measures to the city.

History lets us date this statue between B. C. 31 and A. D. 14, when Emperor Augustus died near Naples, aged seventy-six. Experts say the face is the face of a man of fifty. In the worn lines, the ill-tempered mouth, its upward twist at the left side, we have no flattering picture of the great emperor, but a lifelike study by an artist who dared to cut his statue as he saw the human model. For this reason, and because of its surely being done in Augustus' lifetime, it is a very valuable addition to the collection of portraits of the Roman emperors, and probably the only one extant of Augustus done during his lifetime.

The figure, which originally sat on the pedestal at the head of the hall, is graceful, as Suetonius, that gossip historian from whom later scribes have learned nearly all they know about the Roman emperors, told us, saying:

Graceful Person.

"He was a very graceful person through all the stages of life, though he was very careless in his dress and would get several barbers to work upon his hair together, and would sometimes clip and sometimes shave his beard, and at the same time would be reading or writing."

Augustus, though emperor, called himself a democrat and, says Suetonius, "always abhorred the title of lord as a scandalous affront." He tells us, too, that the emperor caught cold easily and wore woolen underwear in winter, "with a thick wool toga."

This broken statue, with the base on which it stood, unearthed after so long bridges the gulf of centuries and brings one of the greatest rulers the world ever saw very near.

HAS 9-EGG BREAKFAST

"A Square Meal at Last," Says English Adventurer.

Makes Three Month's Canoe Trip in Far North of Canada and Alaska.

Winnipeg, Man.—Hugh Kindersley, twenty-nine years old, son of Sir Robert Kindersley, governor of the Hudson Bay company, has returned from a three month's canoe trip through the Far North of Canada and Alaska.

With Capt. Tom O'Kelly, a veteran of the company's service, as his guide and only companion, he set out from Athabasca Landing in a 19-foot canoe. He traveled by Athabasca river, Athabasca lake, Slave river, Great Slave lake and the Mackenzie river to within 90 miles of the Arctic ocean, visiting the old Hudson bay fur posts on his way. At Fort Good Hope he crossed the Arctic circle and was then in the region of the midnight sun and continuous daylight. As he says, he "saw no stars from early in June until August 7."

Beyond Fort McPherson and Arctic Red river he ascended Rat river, "a narrow torrent of rushing glacier water that drops as much in 60 miles as the Yukon in 2,000," crossed the rocky mountains and, with supplies completely exhausted, reached Fort Yukon August 13.

"A square meal at last," wrote the young Englishman in his diary. "Never before have I eaten nine eggs for breakfast, not to mention ham, bread, jam, cake, coffee and whapping."

From Fort Yukon he went up the Yukon past Dawson and White Horse, through the old Klondike gold fields and took steamer at Skagway for Vancouver. The two adventurers camped out constantly and the young son of the house of Kindersley became an expert camp cook.

"While fighting our way up Rat river," he said, "mosquitoes swarmed about in dense clouds. If I removed my gauntlets, my hands were instantly hidden with the insects. Stumbling through the tundra, I lost my mosquito-bar helmet and soon my face was covered with the blood of crushed mosquitoes. But I enjoyed every minute of it."

Ontario Buys Up Railways

Canadian Province to Pay \$32,734,000 for Public Utilities in and Around Toronto.

Toronto, Ont.—A deal, subject only to ratification by the Ontario government, was completed whereby the province will purchase virtually all of the MacKenzie power interests in and around this city for \$32,734,000.

Property concerned comprises, in addition to various suburban railways and power plants, the Electric Development company at Niagara Falls, Ont., with its transmission line to Toronto.

The deal marks the close of two years' negotiations between Sir William MacKenzie and Sir Adam Beck. It means that, with the exception of the Dominion Power company at Hamilton, all the larger hydro concerns in the province are publicly owned.

Breaks Glass to Get Kiss; Finds Girl Wax

Philadelphia.—Louis Katsaly came down from Coatesville, Pa., to see the city sights. He was passing a department store when he saw the beautiful figure of a girl in one of the windows, casting an alluring smile in his direction. He beckoned to her to come out and join him, but she did not move and kept right on smiling. Louis decided to pursue her. He smashed the window and grabbed the figure around the waist. He was about to kiss the wax lips when a policeman grabbed him.

FINDS \$1,100 ON TRASH PILE

Stolen War Savings Stamps Were Hidden in Old Values in Guthrie, Okla.

Guthrie, Okla.—Six weeks ago W. F. Davis of this city found an old value under a house he was moving and threw it on a trash pile in the yard. It held there until he started to haul the trash away and on close examination found \$1,100 in War Savings stamps under a false bottom. Inquiry developed the fact that the value was here stolen from its front of a local hotel last spring and brought to Guthrie, Okla., a traveling man from Tulsa. The stamps were all registered in his name.

Madison, Ky.—"Nineteen" surely played a tragic role in the last days of Bonnie Barker, buried at Cave-in-Rock, September 10, 1917, was wounded September 12, 1918 and November 10 of the same year died. His body arrived in the United States November 10, 1920.

What Little Brother Suggested.

Madisonville, Ky.—Ray Bailey, aged fifteen, will live through 71 and had to be picked from his bed by a surgeon. He was shot in the back, the wound being fatal. Tracing him Ray found the body.

The frame building at 10 North Front street known as the Peter Gallagher house is being torn down and the lot, with the one adjoining from which the old stove and tin store of Gallagher was razed some time ago, will be used as a site for a large modern garage to be erected by John Van Kleeck, who purchased the property a few months ago.

FINANCIAL AND COMMERCIAL

By Telegraph to The Freeman. New York, Jan. 4.—There was a general disposition to look for a receding market on the stock exchange today at the beginning of business because of statements that were made late yesterday that a large part of the buying on the first day of the new year had been to cover shorts by those who have been trading on the bear side for a long period, and as a matter of policy, waited until after the end of the year before taking profits on their short operations.

The market, however, showed a steady tone in spite of these prevailing views, but after the opening, fractional losses were sustained in some issues. Interest was attached especially to Atlantic Gulf and Westinghouse, which, after being supported at 69 yesterday, sold down to 67 in the first few minutes, a new low record for this movement without any special developments of which the public has knowledge occurring to explain the steady pressure against this stock. U. S. Steel was traded in at 81 1/2 to 81 3/4 all through the first few minutes and Baldwin Locomotive ranged from 86 1/2 to 86 3/4, with a rally to 86 1/2, showing a small fractional gain.

Crucible moved up a 1/4 and a small gain was made in other steel issues. Mexican Petroleum opened up 1/2 at 161 and after reacting to 160 1/2, moved up to 161 1/2.

The market was subjected to pressure from several groups in the afternoon, with traders generally concentrating attacks on the oil stocks and causing sharp depressions in these issues.

The market closed steady; government bonds unchanged; railway and other bonds steady.

300 SPIES IN AMERICAN ARMY

Amazing Story of German Espionage During the War Is Disclosed.

DESERTER MAKES CONFESSION

Former Officer Tells of Being Sent From Germany With Other Cadets to Enlist in the United States Army.

New York.—An amazing story of German espionage during the war was disclosed when John Willet, former captain in the Forty-eighth United States Infantry, confessed he was really Hans Willers, a cadet in the German army until 1914, when he was sent to this country with 300 other cadets to join the American army and become United States officers.

Willet admitted he had absconded with \$6,000 of his company's funds at Camp Sevier on November 28, 1918, a few weeks after the armistice, and deserted.

It was this offense and not any suspicion of his spy role which resulted in his arrest here when Hugh J. Hannigan, formerly a first lieutenant in the Forty-eighth, recognized the deserter on the street and hailed a policeman.

Hints at Treason in Washington. "You would be surprised how many high German officials held jobs in Washington during the war, Willet told Detective Sergeant O'Leary. The prisoner made this statement after he had narrated how he came here and what he would have done had his regiment been sent to France.

"I would have led my men to slaughter, and could have been useful to my own country in many other ways," Willet declared, according to the police, in explaining why he and others were sent to the United States to enlist in the American army. Willet was taken to Fort Jay prison on Governor's Island.

Confronted by two ex-lieutenants of the Forty-eighth Infantry, Sidney F. Howell, a lawyer, and Francis Hatch, Willet began to respond to questions. As to his pedigree, he said he was born in Germany and educated there.

"I was trained for spy work when I was a boy and later when I was a cadet in a German military academy," the detectives quote Willet as saying. "When the world war began in 1914 I was selected to join a band of cadets who were to come to the United States with orders to join the American army. Other groups went to the French army and to the British. About 300 others came over here with me. I knew my military training soon would be recognized and that promotion would follow, so I enlisted as a private the first opportunity I got. I had no citizenship papers—I did not need any."

Enlisted as Buck Private. "I enlisted as a buck private in Albany soon after my arrival in this country. Within a very short time my ability as a soldier was recognized and I was promoted.

"My heart was nearly broken when I discovered my regiment probably would not be sent to France. I would have died for my country gladly. So, 15 days after the armistice, I took the company fund money and left camp. "I'm telling you this freely because I might as well be dead. Life does not matter much to me."

Willet said that after he deserted Camp Sevier he started traveling. He toured the Pacific coast.

In Chicago about a year ago he married an American girl named Crawford, it is said.

Willet recently opened a mail order business in this city under the name of Crawford.

ORE TOTALS 50,000,000 TONS

Great Lakes Shipments Show Increase of 7,700,000 During Year, Say Duluth Figures.

Duluth, Minn.—The total shipment of iron ore for the season reached approximately 50,000,000 tons, according to figures announced here.

Iron ore shipped from the head of the lakes has for amounts to 47,000,000 tons, with about 30,000 tons remaining to go out from the Duluth and Iron Range railroad docks at Two Harbors and the Chicago & North-western railroad docks at Ashland, Wis.

Total shipments from all the docks for the season show an increase of approximately 7,700,000 tons over last year, when 40,000,000 tons were shipped.

May Be as Handy With the Shot.

Frankfort, Ky.—Mrs. Jackson Morris, wife of Kentucky's adjutant general, is as handy with a gun that when she wants a chicken killed she merely steps to the back door, takes aim with her .22 rifle and the chicken falls with a bullet through its head. She uses a gun brought from Kentucky by the adjutant general and presented to his little son.

No Chance for Japs.

Moravia, O.—"I don't feel any one offering me a drink," Mayor Spangner remarked while sitting on a public bench. "You bet you can't get a drink here, and I don't care to offer you one."

Remembering Lenin.

To quietly and quickly remove a label from a bottle, wet the face of the label with water and hold for a moment over any convenient flame. The steam forced underneath the label at once and softens the glue.

Lions and the dangers of the jungle had no terror for her for she was secure in the love of the Son of Tarzan.

The most thrilling and exciting story ever told on the screen.

TOMORROW—WEDNESDAY

Thank God for Friends. There are some people who seem to be made for friendship just as others are created for other purposes. To have and to hold friends usually means that a man or woman must be absolutely sincere. We think of certain great men as being good friends. Stevenson, for example, had many friends, and Theodore Roosevelt and Phillips Brooks. What a wonderful blessing to have such men for one's friends—yet lesser lights are no less good friends, and if we look about I am sure that we will say: "Thank God for our friends!"—Richards.

Printing by K-Ray.

There is a process of printing by the aid of the X-ray which is called typoduplication. One way to prepare the original copy is to print the text with adhesive ink, and then draw metallic powder over it. The copy is next bound up with about fifty thousandths of an inch of paper and subjected to the action of the X-ray beam. Twenty blocks of 20 sheets each, it is said, can be arranged simultaneously around a single tube, thus producing 1,000 copies of the original with about ten seconds exposure.

Shortened Speed.

The speed with which shorthand can be written is a much-debated subject. It has been proved that it can be written as fast as long-handled with ordinary public speakers at a rate of from 120 to 150 words a minute. Records of from 200 to 300 words a minute have been made, and it is asserted that in England and America that this speed has been exceeded. Such records, however, are generally only for one sentence, and are not to be kept up for any length of time.

MRS. WILMOT HERE TONIGHT

Talks on Home Decoration—Similar Meetings Scheduled by Home Bureau at Kingston, Stone Ridge, Kerhonkson and New Paltz.

The first of a series of five meetings on home decoration to be held in the county this week took place last night in Memorial Hall at Ellenville, where a large audience greeted Mrs. Grace R. Wilmot of New York City, the speaker of the evening. Mrs. Wilmot is not only a well known authority on the subject of "Home Decoration," but also a sweet, graceful speaker who holds the closest attention of her audience from beginning to end without effort.

Mrs. Wilmot emphasized the fact that "Home Decoration" does not necessarily mean the expenditure of a lot of money, but rather the expenditure of the imagination. She particularly stressed the term "interior decoration" as it is incorrectly used and so many structures are committed to that name. The term should imply, she says, a selection of color, material for walls, wood and furnishings, floor and furniture and the proper arrangement of everything that goes into a room.

The background is the essential feature of the room and should have as its keynote—simplicity. The arrangement of furniture should be given special study and on this as well as on every other point the speaker gave many helpful suggestions and answered many questions giving assistance particularly to the making and use of several kinds of furniture in the same room. Rag rugs, typical of America and the Colonial period, she advocated, also the revival of some of the arts and crafts of our grandmothers. Mrs. Wilmot went into detail on the subject of color in the home, artistic backgrounds, window draping and the treatment of walls and floors showing beautiful colored slides and decorative materials to further illustrate her points.

Everyone was intensely interested in all that Mrs. Wilmot said as was shown by the rapid attention and the many questions asked. The lantern slides too, were not only instructive but were beautiful to look at. This meeting was conducted by the Ellenville Monday Club and the local Home Bureau.

Kingston, Stone Ridge, Kerhonkson and New Paltz are the other places where the Home Bureau co-operating with local organizations will hold meetings similar to the one held at Ellenville. The subject of home decoration, as taken up by Mrs. Wilmot, is not a fad but one of the most important problems every homemaker has to solve.

The other meetings as scheduled by the Home Bureau this week are as follows:

Kingston—Time: Tuesday evening, January 4, 8 o'clock. Place: St. John's parish house, Wall street.

Kerhonkson—Time: Wednesday, January 5, 7:30 p. m. Place: Reformed Church S. E. room.

Stone Ridge—Time: Thursday, January 6, 7:30 p. m. Place: Grange Hall, Stone Ridge.

New Paltz—Time: Friday evening, January 7, 7:30 o'clock. Place: Grange Hall, New Paltz.

WHITEFIELD.

Whitefield, Jan. 2.—The Christmas entertainment was a decided success. Much credit is due Miss Brown and scholars for the fine program, at the close of which old Santa appeared and presented the children with gifts from the Christmas tree, which looked very pretty. Refreshments of cake, coffee and candy were served. A neat little sum of \$14.51 was cleared which will go for school supplies.

Ernest Hornbeck, Edison Baker, Marjorie Brown and Beatrice Baker attended a party at Kerhonkson Thursday evening and report a fine time.

Mrs. Arthur Davis and daughter, Marjorie, spent Thursday with Mrs. Simon Hornbeck.

Harry Osterhout spent his holiday vacation with his parents at Pataunk.

Mr. and Mrs. John Enderly enjoyed a sleigh ride on Wednesday afternoon.

Mrs. Simon Hornbeck and daughter called on Mrs. Jacob Rider Friday afternoon.

Miss Edna Wood and Marion Barry of Shrub Oak are spending a week's vacation with their parents at Mrs. Jerome Enderly and daughter, Vera, spent Tuesday with Mrs. Enderly's mother.

FEW HEALTHY POLISH CHILDREN

There are entire provinces of Poland in which it is impossible to "which has devastated and ruined a letter received by the European Relief Council from the Archbishop of Warsaw.

"The Bolshevik invasion," writes Cardinal Kakowski, to Mr. Hoover, "which has devastated and ruined a great part of the country has contributed to the children's misery. Appeals reach us from everywhere in regard to the children who are perishing victims of disease and hatred. Before the Soviet troops destroyed the farming and food producing areas the children of one province were wont to help their little suffering friends in other provinces. Many times they took up collections, saved pieces of their own clothes and went hungry themselves to give to their little friends.

Now the children who use to depend on their parents for support," writes Minister of Appropriation Siwinski, at Warsaw, "are themselves in a desperate condition. Many of them have been rendered homeless by the inability of their parents to care for them and have been put in hospitals and asylums. The same children who marched before Mr. Hoover in Warsaw a year ago to show their gratitude for the help rendered by his association are now appealing for help themselves. Most of them are too small to read or write so it is difficult to get news of their plight to the outer world."

The problem of food for children is very acute. They have been starved for so long that they are unable to digest any but the simplest food. It is impossible to feed many of them on milk since, because of the dearth of cows, there is very little milk. Scientific men are trying to compound a substitute for milk but so far have been unsuccessful though several compound foods have been made for adults. Every pound of rice or flour, every can of milk will be a life saver to the children of Poland.

WEST PARK.

West Park, Jan. 3.—The tax collector will be at the store of Ralph Spencer on Thursday, January 6, to receive the land taxes.

John Quick, Jr., is now stationed in Newport, R. I.

Charles Doderer has accepted a position as violinist with Phillips' orchestra in Newburgh.

Miss Anna Shortell of Kingston spent the week end at the home of Mr. and Mrs. Pierre Travis.

James Burger returned home from Kingston on Saturday.

Wells Du Mont spent the week end in New York City.

Mrs. Harry Terwilliger spent Friday in Kingston.

Miss Marion Von Etena returned home from Jersey City on Sunday.

Gilbert Burridge of Poughkeepsie was a visitor here on New Year's day.

Mrs. William Lundy has recovered from her recent illness.

Thomas Wynne is spending several days at his home in Catskill.

Raymond Green was a visitor in Kingston on New Year's day.

STATE ELECTORAL COLLEGE MONDAY

By Telegram to The Freeman.
Albany Jan. 4.—Forty-one men and four women, constituting the New York State Electoral College, will meet in the senate chamber at the state capitol next Monday noon for the purpose of casting their ballots as electors of Warren G. Harding and Calvin Coolidge. John J. Lyons, secretary of state, will preside at the opening of the session, after which the members will select their presiding officers from among their number.

One member of the electoral college will be selected to make a trip to Washington and personally deliver a statement of the vote cast to the president of the United States senate while another will deliver the results to the presiding judge of the United States district court at Utica, a statement also being mailed to the president of the United States senate.

The coming gathering will bring to Albany many persons of prominence. Each congressional district will be represented by an elector, while Virginia M. Bacon of Westbury and Otis H. Culter of Suffern will be the electors-at-large. The remainder of the college is made up of the following:

Charles A. Davids, Bayside; Gilbert P. Voorhees, Corona; Michael J. Dwyer, Richard H. Laimbeer, Jr., Alfred E. Vass, Clarence H. Smith, Thomas Fairbanks, James C. Francesconi, George H. Relchers, Max Drucker, of Brooklyn; Ruth B. Pratt, Alexander Wolf, Antonio Dalesandro, Sadie Koehn, Herman W. Beyer, C. Mathilde Schaefer, Jules S. Bache, William C. Hecht, Jr., Millard H. Odell, Newburgh; Martin Cantine, Saugerties; Frank P. McCarthy and Frank B. Twining, of Troy; W. Barlow Dunlap, Amsterdam; Irving H. Griswold, Pultsburg; John D. Higgins, Oswego; Percy C. Thomas, Homer; Jerome H. Haddell, Binghamton; Leonard Saxay, Syracuse; George Underwood, Auburn; Samuel P. Orth, Ithaca; George D. Whitcomb, Rochester; Ernest D. Woodward, LeRoy; Edward B. Holmes, Buffalo; Herbert C. Crouch, Snyder; Herbert S. Sisson, Collins; Edward L. Allen, Jamestown.

AT THE THEATERS.

"Merry-makers" at Opera House—Warwick at Keeney's.

"The City of Masks," starring Robert Warwick, is the photoplay attraction at Keeney's tonight. It is a thrilling George Barr McCutcheon romance of New York's veiled identities where the characters play their secret game of love. Also programmed Burton Holmes adventure scenes and Kinogram News. Tomorrow Elsie Hammerstein in "The Point of View," also beginning the great serial "The Son of Tarzan." Each of the fifteen episodes is a complete story, with action, thrills and excitement.

"Just Pals," a lively human interest story, starring Buck Jones, is the attraction at the Auditorium tonight. The story is full of action. The Hall Room Boys in a comedy "Movie Madness," and Neal Hart in "The Man Getter," are added features tonight. Tomorrow Ethel Clayton in "The Web of Desire."

At the opera house every day this week, "The Tip-Top Merry-makers" are presenting their offering full of music, comedy and girls.

BOXING CHAMPIONSHIPS.

Fifteen bouts at Madison Square Garden tonight.

By Telegram to The Freeman.
New York, Jan. 4.—Fifteen bouts, three of them finals, will be decided tonight in the state boxing championships at Madison Square Garden. Because of numerous entries the officials decided that some semifinals would have to be staged the same night, but it was impossible to announce all participants as in most divisions only slight arrangements had been worked out.

In the 175 pound class George J. Murphy, St. Bartholomew's Club, won his semifinal bout from Francis Hoffman, unattached. In one round.

BEARVILLE.
Bearville, Jan. 3.—Eleven more members were initiated in Bearville Lodge, I. O. O. F., on Friday night of last week. About 40 members of the lodge were present beside the candidates for initiation and visiting members from Saugerties and Poughkeepsie lodges. A general good time and fellowship meeting was held after the degree work.

Lodge is progressing. New members are being added nearly every week. A building lot has been purchased of Shaffer Vredenburg and a large hall is to be erected in the near future. A public installation will be held January 11 when members and their families and special friends will be invited.

Mr. and Mrs. Thomas Merle and son Harold, of Poughkeepsie, and Miss Harriet Manna of Woodstock spent New Year's with Mrs. R. N. Ricks.

Brudley M. Statton of New Britain, Conn., is visiting his brother, C. R. Statton.

Mrs. Davies, a trained nurse of New York city, is spending a definite time with her daughter, Mrs. Theron Lusk.

Mrs. Crick and son and Miss Menden of Poughkeepsie spent the week with Mr. and Mrs. Clarence Statton.

Several from this place attended the Christmas entertainment at the Reformed Church, Woodstock, last Thursday evening.

School will reopen on Wednesday of this week.

Mr. and Mrs. Thomas Lusk are receiving congratulations on the arrival of a little daughter at their home.

Mr. and Mrs. Edward Statton spent Sunday with their daughter, Mrs. Charles Howard at Study.

THE MOHICAN COMPANY

HAVE BRIEF SPAN OF LIFE

Most Placer Mining Camps Flourish
for a Little While and Then
Pass Into Oblivion.

Exception to the rule governing
mining camps, hectic activity and
quick decay, are Helena, site of a
one-time noted placer camp, and the
fine city of Denver, where, in the sum-
mer of 1858, James H. Pierce panned
out a little gold from a sandbar near
the mouth of Cherry creek, a discov-
ery that fired the expectations of
thousands and started the historic
rush to Pike's peak country.

The fine and progressive city of
Leavenworth, Kan., is another exception
to the rule of oblivion that has been
the almost unvarying fate of placer
camps. While, strictly speaking, Leav-

enworth was not a placer camp, but the
outfitting point at the head of steam-
boat navigation, for the stampede into
the clear-water region, in the early
'90s, it was a placer camp in other
respects, and in the wild spirit of earl-
y-day gold hunting.

With the sailing away of the steam-
ship Victoria, bearing 350 Norse resi-
dents, most of whom announced their
purpose never to return, the brooding
spirit of melancholy came in with the
long, long winter. Again the "wolf's
long howl" is heard on Ounashka's
lonely shore, and the little remnant
of population is left with memories
and disappointed hopes. Yet a few
will cling to the deserted beach to the
last breath of life, for such is the
unfading record of every famous
camp, to live over again in memory,
through the long arctic nights, the
stirring scenes of 20 years ago.—Spon-

Idiosyncrasies.
The thing to be remembered is that
there are personal idiosyncrasies in
every worker, and that each worker
does some kind of work especially
well and other tasks indifferently or
poorly. It is hardly worth while for
the mistress to attempt to change a
worker's natural manner of work or
habits. Some workers plod slowly for
hours and they are not the kind that
can ever work quickly for short peri-
ods. The thing to do is to try to find
out how they work best and improve
their efficiency along that particular
line.

Kingston Shriners Dance.—Advertise-
ment.

SHRINERS SECURE TWO ORCHESTRAS

The various committees of the
Kingston Shriners' Association are
hustling hard with their preparations
for their annual dance to be held at
the New York state armory in this
city on the night of January 12. The
proceeds to be given the Industrial
Home. The entertainment commit-
tee is negotiating for the best avail-
able talent procurable to present
feature acts during the evening, and
judging by the excellence of the en-
tertainments at the previous dances
the acts this year will be all that are
promised. The music committee has
secured Curt Shurter's orchestra of
eleven pieces and the Broadway
Syncope, an orchestra that met
with big success at scores of the
swellest functions given by society in
New York city and the dancers will
not be disappointed in this line. Members of the committee in charge
of the ticket sale report that the
members of the Shriners' Association
so far are finding a good demand for
tickets which assures a large attend-
ance. The committee on decorations
promise to have the armory lavishly
beautified.

WEATHER HELPS BUILDERS

But Millard Improvement Is De-
pendent Until Spring.

Work on the large building of the
New York Telephone Company build-
ing on West O'Reilly street, E. Otis
Van Aken contractor, is progressing
very satisfactorily the weather, hav-
ing been excellent for outdoor work.
The iron workers are now busy set-
ting up the iron posts in the base-
ment, and upon the completion of
their work which will not take long,
the masons will start in again, weat-
her permitting.

Owing to the character of the work
the putting up of the front for the
Millard building at Post Office Square
has stopped for the winter. This front
will be when completed one of the
finest in this city, to be of light col-
ored stucco, similar in style to the
Dedrick street side with large plate
glass windows for the show rooms
where the Ford cars are to be dis-
played, and the front to have a num-
ber of offices.

King's Name Was On Cup

Through an error the name of
Walter R. King was omitted from
the list of names which appeared on
the silver loving cup which was pre-
sented to Mrs. Lahl last Thursday
evening by ex-service men to whom
Mrs. Lahl wrote while they were in
the service during the World War.
The cup was presented to Mrs. Lahl
in appreciation of the good cheer
and encouragement given through
almost weekly letters to these young
men.

Conversation.

Talk is common; conversation is
rare. Henry Thoreau has written:
"When our life ceases to be inward
and private, conversation degenerates
into mere gossip. We rarely meet a
man who can tell us any news which
he has not read in a newspaper, or
been told by his neighbor and, for the
most part, the only difference between
us and our fellow is that he has seen
the newspaper, or been told to ten, and
we have not. In proportion as our in-
ward life fails, we go more constantly
and desperately to the post office. You
may depend on it that the poor fellow
who walks away with the greatest
numbers of letters, proud of his ex-
tensive correspondence, has not heard
from himself this long while."

reckoning Longitude.

Longitude in the United Kingdom
and generally in the United States is
reckoned from Greenwich, degrees be-
ing known as east longitude and west
longitude from that point until they
meet in the Pacific ocean at 180 de-
grees from Greenwich, the opposite
zero point, Asia being in east longi-
tude and the United States in west
longitude. For the same reason the
term Ordeal is applied to the East and
Occident to the West. It may be said
that Germany reckons longitude from
Berlin, France from Paris and Spain
from Madrid, while sometimes it is
reckoned in this country from Wash-
ington, but, usually speaking, Green-
wich is meant.

A Miner of Gullies.

F. B. Lanley, an ore specialist, is
removing lead and copper ore from
the hill back of the target range at
Camp Lewis, near Tacoma, Wash. By
means of a "jig" operated by water
power, he shakes the heavy metal
from the earth which he is excavating.
In three months' time, he expects to
get 100 tons of metal valued approxi-
mately at \$200 a ton, and having
cleaned up at Camp Lewis, he will
take his apparatus to other camp
sites. All of the metal he mines was
shot into the hillside by the boys of
Uncle Sam's army two years ago.
Lanley works on a commission basis.

says Lanley of himself.—Leah's

SENATORS URGE
CHEAP INAUGURAL

By Telegraph to The Freeman.

Washington, Jan. 4.—Inauguration expenses were limited to \$50,000 by a resolution introduced in the senate today by Senator Knox, Republican, of Pennsylvania.

"The erection of a stand in front of the capitol should be the only expense," Senator Borah, of Idaho, declared. "If we go into other matters the expense will reach \$300,000."

Senator Nor, Republican, of Indiana, said \$50,000 additional would be required for police protection, information forces, and other incidentals.

"I estimate there will be a million dollars spent for the inauguration by the federal, state and municipal governments of this country," Borah declared.

"That is a fine beginning for an administration pledged to economy."

"We have served here with Senator Harding and I know if he had his way the matter would be simple."

"I would not have said a word about this if conditions were normal. The people feel that the men who represent them here should use common sense."

The first 1921 meeting of the Senate was held on Monday at the home of Mrs. J. William Murray on Franklin street. Mrs. Leighton read, Miss Dorothy Leighton's paper on "South American Poets," which proved very interesting. A most excellent paper on "The Home," was then given by Mrs. Grover Lasker who closed her paper with a reading of Louise Driscoll's beautiful poem, "The Home."

Next Monday the club will meet in the evening at the home of Mrs. Vernon Hull the occasion being a social gathering of the members.

Monday Club.

The Monday Club resumed its meetings on Monday, January 3, at the home of Mrs. Kenyon. The report on the sale of Christmas seals which this club carried on in the First Ward showed \$430 worth of seals sold, and a contribution to the tuberculosis hospital of \$50. Mrs. Kenyon had the paper for the day, her subject being, "Frank Swinnerton," which she presented. She also gave readings from his "The Chaste Wife," Mrs. Tappen read from his "September," and Miss DuBois gave a fine resume of "Nocturne," by the same author. Next Monday the club will meet with Mrs. Philip Elting.

Engagement Announced.

Mrs. Emma Hirm of 829 Putman avenue, Brooklyn, has announced the engagement of her only daughter, Miss Florence Hirm, to Walter A. DeGraff of Kingston, N. Y. The Hirm family are old members of the Buickwick M. E. Church. Miss Hirm graduated from Public School No. 56, and Manual Training High School, Mr. DeGraff is musical and during the war, served in the U. S. Recruiting Band which traveled over the country. When he leaves the service next summer, he expects to obtain a position as musical director in a high school in the middle West. No date is set for the wedding.

Nolan-Gearrity.

St. Mary's Church was the scene of a very pretty wedding at 3:30 o'clock this morning when Miss Helen Angela Gearrity, daughter of the late Daniel P. Gearrity, became the bride of John A. Nolan. To the strains of Mendelssohn's Wedding March, the bride party entered the church and were met at the altar by the Very Rev. Dean Hickey, who performed the ceremony which was followed by a nuptial Mass. Miss Gearrity was handsomely gowned in white crepe de chine with hat to match and carried white carnations. Her attendant, Miss Mary Harmon, a cousin, was also prettily gowned in white crepe de chine. Edward F. Reynolds, business partner of Mr. Nolan, acted as best man. During the ceremony Mrs. William H. Rieker effectively rendered "O Promise Me." After the ceremony the wedding party proceeded to Wittwyck Inn, where a wedding breakfast was served, and later Mr. and Mrs. Nolan left for Niagara Falls and other points in the west. Mr. Nolan is well known and popular. He is a member of the firm of Nolan &

RUTH READY TO START TRAINING

By Telegram to The Freeman.
New York, Jan. 4.—Babe Ruth believes that a champion should keep in the best of physical condition if he wants to continue to be a champion.

As Babe is the world's premier home run king he applies this to himself and in order to start the 1921 season in the proverbial "pink" he has today asked Business Manager Ed Barry of the Yankees to send him to Hot Springs, Ark., with the advance guard of pitchers. Ruth took on some weight during his trip to Cuba. He accumulated quite a weight, in fact, and he wants to reduce it, though he says he is not worried about the weight he has picked up.

"I don't believe in being at my lowest weight when the season starts," said Ruth. "A few extra pounds give a fellow a reserve that guards against staleness later in the season."

Ruth added that he will do a bit of pitching at Hot Springs. He doesn't mean to lose his knack at pitching even though he is a regular outfielder with home run making as his chief business.

Incidentally Ruth will have a new pair of "gardeners" in the field with him next season if the present plans of Manager Huggins do not miscarry. Bobby Roth, late of the Senators, will play on one side of the home run king and if a deal the Yankees have in mind goes through, it is quite possible that Bobby Veach will be the third member of the Yankee gardening trio.

As Ruth is a hitter of great ability himself and Ruth just as proficately with the bludgeon, the Yankees will have a murderous outfield, providing they can land Veach. The Tiger outfielder hit 11 home runs and batted .307 last season.

FLEISCHMANN'S WINS.

Defeat Newark Team Before Large Crowd by Score, 42-28.
The Fleischmanns Crescents won from the Central A. C. of Newark, N. J., at Fleischmanns last Friday evening by the score of 42 to 28. The game was witnessed by the largest crowd of the season and the play was fast and clean from start until finish.

The Crescents took the lead at the start, but the Central came right back and evened things up. The first half was very fast, the score being 18 to 15 in favor of the Crescents at intermission. In the second half the superior passwork and shooting of the Crescents took the lead and held it throughout the remainder of the game, winning by the score of 42 to 28. McLucy featured for Newark while Barrett played a good game for Fleischmanns. Luskien did the refereeing and as usual both teams were satisfied, true sportsmanship prevailing throughout the game.

BOXING CONVENTION.

It is Hoped to Have 25 States Represented Next Week.

By Telegram to The Freeman.
New York, Jan. 4.—Twenty-five states may be represented here January 10, 11 and 12, when the proposed national board of boxing control will be organized. It developed today. Delegates to the convention have been named by the governors of seventeen states. Representatives from eight other states are yet to be named by governors-elect.

Means of financing the national boxing body, rules to govern the sport and steps to affiliate with like bodies of other nations will be taken up at the meeting here next week.

KLOOR AND OTHERS FROST BITTEN

By Telegram to The Freeman.
Winthrop, Mass., Jan. 4.—Headquarters of the Hudson Bay Company here today reported that the three American balloonists—Lieutenants Walter Hinton, Stephen Farrell and A. L. Kloor Jr.—were severely frost bitten when they landed at Moose Factory and had been out of provisions for several days. They saved themselves on concentrated foods.

The men landed several miles out on the ice fields of James Bay. The manager of the Hudson Bay post immediately dispatched a dog team to their assistance and they were brought to the post. Another dog team driven by Indians was dispatched to the nearest telegraph station at Mattice on the Mic-anabie river on the Canadian Transcontinental Railway.

The balloon in which the men made their flight was dismantled at Moose Factory and will be brought out in the spring on open water.

The balloonists are bringing with them the records of their flight. According to reports here the balloonists passed over Cocaine at midnight December 15 in a heavy snowstorm and were seen by a railway telegrapher who reported they were then at a very high altitude, but were displaying lights of red and green.

The party left Moose Factory on December 27, but owing to heavy storms and deep snows, are not expected to reach the railway until January 8. Four dog teams are being used to transport the balloonists with their records and equipment on the 300 mile journey across the snow.

CASH AND LOVE GONE

Once Wealthy Man Brings Action Against Girl Wife.

Aged Husband Demands an Accounting for \$50,000 Turned Over to Wife and Relatives.

Atlantic City.—Penniless and sixty-five years old, William P. Riffe, once a wealthy resident of Uniontown, Pa., appeared before Vice Chancellor Leaming here in an action he has brought against his nineteen-year-old wife and her uncle and aunt, Mr. and Mrs. Frank Matthews, formerly of New York, but for the past year residents of this city. He sues to compel the latter to give an accounting for \$50,000 which he turned over to them.

Riffe testified that two years ago Mrs. Matthews showed him the picture of her niece, then seventeen, when he went to her hotel on South Illinois avenue, in search of health. He said that he became enamored of the girl and Mrs. Matthews brought her to the hotel. They became engaged after he had promised to give her \$10,000. Shortly afterward they were married. He testified that he gave Mr. and Mrs. Matthews nearly \$50,000, with the understanding that the money was to be invested in real estate.

After his wife was gone, he charged, his wife sold the furniture he had bought for their home despite his protest. She then gave him \$16 of the proceeds to go to his home, he added, and even tried, he swore, to take that away from him before he left.

The defense sought to show that the money had paid for \$1000 worth of clothes for the young wife, an automobile, diamonds and jewelry. Riffe admitted the money lasted only six months. Then, he charged, the Matthews sent him home to Uniontown to raise more funds, but he had been unsuccessful.

He declared that he was forced to leave his wife in March of this year.

COURT O. K.'S HAIR PULLING

Wife Justified in "Remonstrating" With Rival, Massachusetts Judge Rules.

Law, Mass.—A hair-pulling match between a wife and another woman who is found with the husband is perfectly in order from the spouse's viewpoint, according to the ruling of Associate Justice Edward B. O'Brien of the District court here.

He was called upon to render a decision at the trial of Mrs. Lillian Luskien, a divorcee, charged with assault with a dangerous weapon Mrs. Catherine Currie, the wife of a Boston policeman. Although it was charged that Mrs. Currie made the first move in the hair-pulling, the justice said: "I think the wife is justified in remonstrating, even to the extent of pulling hair out if such a case comes before me and I should rule in favor of the aggrieved wife."

Love of Music Traps Robber of Poor Box

Philadelphia.—It was his love for music which led to the arrest of Jacob Katz, twenty-four years old, who entered the National Lutheran church here shortly after midnight and found the poor box which he supposed of the contents, \$3. Then he found the new organ Katz had musical talent and he was his fingers over the keys. When he began to play in the church he was pulled out by the organist and threatened arrest. The organist threatened the poor man, Sam. Rabinowitz, who then went down, and he called the police.

ROBBER OFFERS VICTIM \$10

"You Need It Worse Than I," He Says to Holdup on Finding Man Possession.

Stonewille, O.—Daniel Cable, a factory worker, reported to the police here that a robber, who had held him up while he was on his way home to a supper, offered to give him \$10 after the highwayman discovered that he was penniless.

Cable said that the robber leaped upon, overpowered him, and then went through his pockets. Finding no money, Cable said, the highwayman reached into his own pocket, pulled out a roll of bills and offered to give him \$10 saying: "Here, brother, you need it more than I do."

Cable said he was too surprised to accept the money.
Lawyer Gets \$150,000.
Amsterdam, N.Y.—From a lawyer's task at the Washington conference to the possession of \$150,000 was the realization here recently of Claude Stenham, who received a telegram from an Eastern lawyer advising him that he had received the fortune on the sale of all work. Stenham immediately drove his car, purchased a new suit and started East. Stenham conceived the idea of buying off work while in the army. While serving overseas with the Twenty-third division he was awarded \$150,000 in compensation for 5000 of back army pay. The lawyer purchasing a month in the army, he said.

Automatic Chess Player.
Toward the close of the eighteenth century Baron Koenigstein invented an automatic chess player which created a great sensation. The automaton—a life-size figure dressed in oriental costume—altered the principal European games, playing against the leading chess experts in Paris, and generally defeating them. It traveled Vienna when Napoleon was banished there after the battle of Waterloo, and the emperor was induced to match himself against the automaton. Napoleon lost the first game, and in the second he deliberately made two false moves. Each time the pieces were replaced, but on the emperor making yet another false move his opponent swept the pieces off the board and on three chess was played. Subsequently it was discovered that the chess player was a fake. A man was concealed in the chest on which the figure was seated. So Koenigstein, however, was the contrivance that the automaton went on for years before this discovery was made.
Ancient Industry.
Knapsack of skin may be the oldest thing known. It certainly must be the one industry carried on now more so than in the past. The American Indian fashioned his spear and arrowheads, he produced his knives and axes. These have been some improvements in the methods of knapsack, according to the authorities, who write: "The most difficult process in the making of a knapsack is the tanning of a whole skin of a game animal and then, with two or three rawhide straps, to bind the knapsack together and make it into a pack." Even today the knapsack is made of some single form of leather and cloth.
Coke as Substitute for Sand.
A newspaper advertisement that has of late been for running out from the railroad station in order to save coal. The coke is credited to a required degree of smoothness and of strength a piece of coke will do the work of a piece of sand. After the coke has been used the paper is ready for use.
